

Seychelles Ports Authority
Procurement Notice
Friday 8th March 2024

INVITATION FOR PREQUALIFICATION

The Seychelles Port Authority (SPA) intends to construct a new deck on pile structure, approximately 310m long, together with the associated revetment, reclamation and back of quay paving works and services on the south-east of the existing quays at the Commercial Port in Port Victoria. The berth pocket and navigational area are to be deepened in order to meet the functional requirements of the new quay. The scope also includes for the provision of one breasting and one mooring dolphin to facilitate the mooring of tanker vessels as well as the provision of the necessary culverts and servitude works to accommodate the relocation of the existing fuel import pipeline, import cement line and connections to be undertaken by others. The expected duration of the contract is 24 months.

Prospective applicants willing to participate in the project must demonstrate suitable experience in design, construction, testing and commissioning of marine structural and civil infrastructure and in particular, the execution of piled marine structures, dredging, reclamation and coastal engineering works.

The deadline for submission of prequalification documents is Friday 12th April 2024.
